

# Duy H. Le

Austin, TX

duylezero@gmail.com

## Education

**Texas A&M University**

*Dwight Look College of Engineering, B.S. Computer Science*

**Minor:** Mathematics, Cybersecurity

**College Station, Texas**

2016 – 2019

## Core Technical Skills

**Languages:** Java \* JS/TS \* C# \* Python 3 \* C++ \* SQL

**Tools/Technologies:** Angular \* React \* Spring Boot \* .NET \* Azure/AWS/GCP

## Professional Experience

**Google**

*Software Engineer*

**Boulder, CO / Austin, TX**

July 2022 - Present

- Tangibly improved Drive Search through UI enhancements, latency reduction, and quality improvements using an experiment-minded approach
- Pioneered deep dives into experiment-first development to convert product requirements into measurable and actionable features
- Delivered GenAI features, monitored quality, and investigated potential headroom for improvements
- Ideated, researched, and delivered a 30% storage indexing reduction that also increased recall accuracy

**Fannie Mae**

*Software Engineer*

**Plano, TX**

July 2021 – June 2022

- Updated legacy securities applications to modern Angular, continuously working with stakeholders to align on feature requirements
- Managed an AWS migration effort, using tools such as Lambda, EC2 instances, and logs
- Discovered and resolved security a major vulnerability in existing applications before any negative impact

**Michaels**

*Software Engineer*

**Irving, TX**

August 2020 – July 2021

- Developed a new eCommerce platform from scratch using ReactJS, Redux Thunk, and Enzyme
- Led the Commerce team in developing a microservice in Java Spring Boot on GCP
- Integrated with other systems in coordinating coupons, checkout, and cart operations
- Managed uploading and storing media from Cloudinary and Vimeo

**Ethos Group**

*Software Developer*

**Irving, TX**

June 2018 – August 2020

- Developed car dealership performance analysis web pages using Angular/AngularJS and .NET
- Used Syncfusion and Telerik libraries to automate car dealership statistics in an infographic
- Integrated Microsoft Azure Video Indexer to demonstrate salesperson effectiveness
- Incorporated several Dealer Management Systems to pull automobile deal data

## Research

**Multi-Robotics Lab (Dr. Dylan Shell)**

*Research Assistant*

**College Station, TX**

August 2017 - June 2018

- Compared two BlackJack game policies with the goal of finding optimal play
- Analyzed and discussed papers on integrating topology with robot pathfinding
- Shadowed graduate students and participated in discussions on robotics and theory

## Leadership

**Philippine Student Association**

*President*

**College Station, TX**

August 2018 - May 2019
